

Project TEAM Kids!

Dear Parent(s)/Guardian(s):

Paradise Elementary is excited to inform you that we will be implementing a new comprehensive bullying prevention/social and emotional school wide program this year called Project TEAM. Project TEAM aims to improve our school's climate and culture, making sure all students feel connected and part of the TEAM!

Project TEAM will bring our school together, helping our students understand the value of working together. Our programming will be felt in all parts of our school. Students will learn the 6 foundations of Project TEAM: **Helping Others, Positive Change, Anti-Bullying, Problem Solving, Resiliency** and **Leadership**. Students will gain an understanding of what the foundations are, why they are important and how to implement them in their lives in and out of school.

Throughout the year, students will be recognized for modeling Project TEAM foundations. Students from each classroom will be nominated by their teachers for displaying positive character traits. This will replace the "Kids With Character" program from past years. Parents will be notified when their child has been chosen as a **Project TEAM Kid!**

We are looking forward to an amazing year and are excited about the opportunities and results Project TEAM will create for our students. Please feel free to contact me with any questions or comments.

Sincerely,

Patrick Moore
School Counselor
